A.C.F. RATING SYSTEM

The A.C.F. produces three rating lists per year. The publication dates and the deadlines for submission of correctly coded events are:

APRIL List	28th Februray
AUGUST List	30th June
DECEMBER List	31st October

The deadlines are set to allow sufficient time to enter all the coding into the A.C.F.'s computer and to correct any errors. It is important that all events which are to be rated are sent to your State's Rating Officer as soon as the event is completed.

Coding forms are set out in a format similar to a tournament scoretable and are available from your State Rating Officer. Instructions on how to complete the coding are on the coding form so please read them carefully. If you have a query then contact your State Rating Officer BEFORE you begin coding. Only events which are submitted via your State Rating Officer will be accepted for rating by the A.C.F.

CALCULATION OF RATINGS

The basic formulae for the A.C.F. rating system are :

- (i) for new players and players who have played less than 9 games against rated opponents:
 $Rn = AR + DP$
- (ii) for players who have played at least 9 games against rated opponents (n.b. This does not include new players or provisionally rated players)
 $Rc = 15*(Sa-Se) + Bp$ (Calculated for each tournament)
 $Rn = Ro + \text{Sum of } Rc$ (Calculated at the end of the rating period)

where Rn = New Rating

Ro = Old Rating

Rc = Rating Change

AR = Average rating of rated opponents

DP = rating difference for the percentage scored, found in Table 1

Se = score expected , found in table 2

Sa = score achieved

Bp = Bonus points (where applicable)

When calculating ratings the following conditions apply :

- Ro is the rating of the player at the start of the rating period
- Se is obtained using Pd based on the average difference in the players ratings from table 2 multiplied by the number of games played.
- if the rating difference between two players is >484 then the difference is set to 484
- games where both players are unrated are not used in calculation
- games where only one player is unrated are not used for the rated player but are used for calculating the provisional rating for the unrated/provisional player.
- if an unrated/provisional exceeds 9 games against rated opponents during an event then that players performance rating becomes their established rating. Their established rating is then used for calculation involving players coded after them in that tournament plus all following tournaments.
- games played by and against computers are not counted for ratings
- all events are weighted equally

BONUS POINTS

Bonus points are given if the following conditions are met :

- If no. of rated games played is between 6 and 10 and $(Sa-Se) > 1$, then $Bp = 15 * (Sa-Se-1)$
- If no. of rated games played is between 11 and 15 and $(Sa-Se) > 2$, then $Bp = 15 * (Sa-Se-2)$
- If no. of rated games played is greater than 15 and $(Sa-Se) > 3$, then $Bp = 15 * (Sa-Se-3)$

Bonus points are not given where less than 6 rated games have been played in a tournament nor are they given to unrated/provisional players.

CONDITIONS FOR RATING EVENTS

- games are to be played at a time limit of two minutes per move or slower for the first time control, provided that the first time control is not before move thirty(30). Note this does not exclude events with a faster time control in the second or subsequent sessions from being rated.
- games may be played under the Rules for Sixty Minute (Rapid) Chess N.B. 60 minutes is the minimum amount of time allocated to each player for the game to be rated.
- the event is not a handicap event (e.g. time or material)
- the event is not a fixed opening event
- the event is not a telechess event or any event involving moves being transmitted via any communication medium (This rule is currently under review)
- the event is approved for rating by the local State Chess Association and/or the A.C.F.

What the A.C.F need to know about you

Every player who plays in a rated event is allocated an IDENTIFICATION NUMBER. In order to identify players and to minimize duplication the basic information required is:

First Name ,Middle Initial, Surname, Sex, Date of Birth (esp Juniors).

This information should be given to the Director of Play in the first few tournaments you play in.

The primary cause for duplication of names on the rating list is that State Ratings Officers may not be aware that a player in an event comes from interstate and has already been allocated a number in that state. It is therefore important that players playing interstate inform the Director of Play that they are from interstate and that the DOP pass this information on to the Rating Officer.

EXAMPLES

Example 1

1985 NSW Country Championship (Orange)

4 August 1985

Craig Laird's (Rating 2327) results were :

Round	Opponents Name	Opponents Rating	Rating Difference	Result
1	S. Margan	1548	484	1
2	K. Cho	provisional	n/a	n/a
3	D. Wriggles	1965	362	0.5
4	S. Solomon	2292	35	0
5	G. Canfell	1561	484	1
			1365	2.5

Average rating difference against 4 rated opponents = $1365/4 = 341.25$

From table 2, % expected = 88%

Score expected = $.88 * 4 = 3.52$

Using the Formula

$$Rc = 15 * (SA-SE)$$

$$Rc = 15 * (2.5-3.52)$$

$$Rc = -15.3$$

Example 2

(Normal calculation with bonus)
1985 Scisys Dandenong Open

30 June 1985

John-Paul Fenwick's (Rating 1589) results were :

Round	Opponents Name	Opponents Rating	Rating Difference	Result
1	L. Bagnell	1156	433	1
2	M. Pusnjak	1883	-294	1
3	D. Hacche	2073	-484	0
4	O. Bergmanis	1918	-329	0.5
5	V. Kildisas	1855	-266	0.5
6	A. Lamden	1607	-19	1
			-959	4

Average rating difference against 6 rated opponents = $-959/6 = -159.83$

From table 2, % expected = 29%

Score expected = $.29 * 6$

$$= 1.74$$

Using the formula

$$Rc = 15 * (SA-SE)$$

$$Rc = 15 * (4-1.74)$$

$$Rc = 32.4$$

As $SA-SE > 1$ and more than 5 games were played against rated opponents $Bp = 15 * (SA-SE-1)$

$$Bp = 15 * (4-1.74-1)$$

$$Bp = 17.4$$

$$Rc = 32.4 + 17.4 = 49.8$$

Example 3

(unrated calculation)
1985 NSW Country Championship (Orange)

John Greenfield's (Unrated) results were :

4 August 1985

Round	Opponents Name	Opponents Rating	Result
1	S.W. Davis	1572	0
2	G. Dawson	1458	0.5
3	D. Singer	1356	0
4	P. Willis	unrated	n/a
5	R. Aldridge	1142	0
		5528	0.5

Average of opponent's rating = $5528/4 = 1382$

Percent achieved = $0.5/4 = 13\% \text{ (Rounded)}$

Rating difference from table 1 = -322

Using the formula:

$$Rn = Ra + Rating Difference$$

$$Rn = 1382 - 322$$

Rn = 1060 (Provisional rating based on 4 games)

Example 4 (Provisional Calculation)

1985 NSW Country Championship (Orange)

4 August 1985

Keith Cho's (1813 provisional) results were:

Round	Opponents Name	Opponents Rating	Result
1	L. Davie	1315	1
2	C. Laird	2327	0
3	J. Glover	1478	0.5
4	S. Lui	unrated	n/a
5	S.W. Davies	1572	1
		6692	2.5

Average opponents rating = $6692/4 = 1673$

% achieved = $2.5/4 = 63\%$ (Rounded)

Rating difference from table 1 = +95

Performance rating for this event = $1673 + 95 = 1768$

Provisional Rating of 1813 is based on 4 games

Therefore New Rating after this event is:

$$Rn = \frac{(4*1813) + (4*1768)}{8} = 1790.5$$

As the total number of games against rated opponents = 8, this player remains provisionally rated.
