A.C.F. RATING SYSTEM

APRIL 1985

INFORMATION

The A.C.F. will produce three rating lists in 1985. The publication dates and the deadlines for the submission of correctly coded events are :

APRIL	28th FEBRUARY 1985
AUGUST	30th JUNE 1985
DECEMBER	31st OCTOBER 1985

The deadlines are set to allow sufficient time to enter all the coding into the A.C.F.'s computer and to correct any errors. It is important that all events which are to be rated are sent to your State's Rating Officer (or State Secretary) as soon as the event is completed.

Coding forms are set out in a format which is similar to a tournament scoretable and are available from your State Rating Officer. Instructions on how to complete the coding are on the coding form so please read them carefully. If you have a query then contact your State Rating Officer. Only events which are submitted via your State Rating Officer will be accepted for rating by the A.C.F.

By having events coded as soon as they are completed any coding errors can be corrected in time for the next rating list. Events with coding errors will not be processed until the errors are corrected.

CALCULATION OF RATINGS

The DECEMBER 1984 Rating List has been rerun at the request of the players at the Player's Meeting at the Ballarat Courier Australian Open 1984/5 and the A.C.F. Council. It was generally agreed that using a factor of 25 (max. points for a win) placed too much emphasis on current performance by a player and too little on past performance.

This rating list uses a factor of 15 and the basic formulae of the A.C.F. rating system are :

(i) for new players and players who have played less than 9 games against rated opponents;

$$R_n = AR + DP$$

where R_n = new rating, AR = average rating of rated opponents, and

DP = rating difference for the percentage scored found in Table 1.

(ii) for players who have played more than 9 games against rated opponents i.e. players with established ratings;

$$R_n = OR + 15*(SA-SE)$$

where OR = players last published rating, SA = score achieved,

SE = score expected using Table 1.

When calculating ratings the following conditions apply :

- OR is the rating of the player at the start of processing (i.e. last published rating).

- SE is obtained using the DP based on the average difference in the player's ratings (from Table 1) * the number of games played.

- if the rating difference > 336 then the difference is set to 336.

- games where both players are unrated are not used in the calculations
- games where only one player has an established rating and the other has a provisional rating or is unrated are not used for the rated player but are used in calculating the performance rating of the other provisional/unrated player.

- ratings for unrated/provisional players are calculated first, and if during the event being processed the player exceeds 9 games against rated opponents then that player's performance rating becomes the new established rating in the rating calculation for the opponents.

- games played by and against computers are not counted for ratings.

15 -302	30 -153	45 -39	60 -76	75 -197	90 -90	115 -115	116 -336	117 -336

Note : for established players, when calculating SE from AR in Table 1 the % column is read from 12 to 100 and the % is taken for the AR which first exceeds the average of your opponent's rating.

After taking into account the above there are two other factors which affect the calculation of established player's ratings :

TOURNAMENT CATEGORIES and BONUS POINTS

The rating factor of 15 is varied depending on the tournament category as outlined below :

- junior events other than Australian title events : weighting = .5
- normal events and Australian Junior events : weighting = 1.0
- State Championships, open and female : weighting = 1.5
- Australian Championships, open and female : weighting = 2.0

Bonus points are given if the following conditions are met :

- for 6 - 10 round events, if $(SA-SE) > 1$, bonus points = $15*(SA-SE-1)$
- for 11 - 15 round events, if $(SA-SE) > 2$, bonus points = $15*(SA-SE-2)$
- for 16 - 20 round events, if $(SA-SE) > 3$, bonus points = $15*(SA-SE-3)$

Bonus points are not given for events of less than 6 rounds nor are they given to unrated/provisional players.

Events, including team events, will only be rated if :

- the time limit is greater than 30 moves per hour for the first time control (refer A.C.F. minutes 81/7.8)
- Note that this does not exclude events with a faster time control in the second or subsequent sessions from being rated.
- it is not a handicap event (e.g. time, piece/pawn)
- it is not a fixed opening event
- it is not approved for rating by the local State Chess Association and/or the A.C.F.

What does the A.C.F. want to know about you?

Every player who plays in a rated event is allocated an IDENTIFICATION NUMBER. In order to identify players and to minimize duplication the basic information required is :

first name (and initial of middle name/s), last name, sex, date of birth, and club. Date of birth may be held as day(numerical) and 3 character abbreviation for the month (i.e. JAN,FEB,MAR,.....). It may also be held on file as ddmmyy where dd=day mm=month yy=year.

The primary cause for duplication of names on the rating list is that State Rating Officers may not be aware that a player in an event comes from interstate and has already been allocated a number in that State. It is important therefore that players playing outside their own State ensure that their home State is indicated on the tournament scoretable and is advised to the State Rating Officer. Similarly, if you move interstate then you should advise the local Rating Officer so that you can be allocated a new IDENTIFICATION NUMBER and your rating and other masterfile information can also be transferred.

This masterfile information will also be used to produce special rating lists, e.g. for juniors, by sex, between rating limits, by club membership.

Much of this information has yet to be collected and it would be appreciated if club secretaries and other interested people would provide this information to your local State Rating Officer.

For your convenience special forms are available for this purpose.

WE DO NOT WANT TO LOSE YOU!!!!!!

In order to reduce the size and cost of printing the rating list we have not included any players whom we believe have not played a rated game since about 1981.

If your name was published on the DECEMBER 1984 rating list and it is not on this list then we are sorry, but please let your State Rating Officer know and we will include it on the next possible list.
