With two rounds two go we were on 18 points and looking for a good finish. However the strain of having only 4 players kicked in and we collapsed in the last two rounds. A 3.5-0.5 loss to the Seychelles in round 13 burst our bubble and we limped to the line with a 3-1 loss to Bermuda in the last round.

Having set ourselves a target of 21 points at the start of the event, we weren't that disappointed with our final score of 19.5 and winning 3 matches and drawing 2 was quite good for a team seeded 120th.

On a personal note I found the Olympiad the highlight of my chess career. Moving

from being a humble club player to a humbled international player was an outstanding experience.

As someone who's big time chess experience has been previously limited to weekend events and a couple of rapidplays in England, the scale of the Olympiad was a real eye opener. Four hundred matches involving the greats and not-so-greats of the chess world in one giant hall provided a feast of entertainment for spectators and starry-eyed players alike.

The other great thing about the tournament was the effort that the organisers put in in accommodating the players. From the moment we were met at the airport until we were dropped off at the end of two and a half weeks, all our needs were catered for.

The only problem for the PNG team was our travel arrangements. Travelling with Malaysian Airlines is a mixed experience at the best of times but this time they decided to cancel our return flight a couple of weeks before the Olympiad. I only found this out when I rang to confirm my booking a week before my departure, and requests to find a return flight on another carrier were met with indifference. This threw all our travel plans into disarray, causing us to spend an extra 3 days in Istanbul and resulting in the team not arriving back until a week after the tournament finished.

Overall it was a tremendous experience but it would not have been possible without the help of others. Gary Bekker deserves a big thanks for getting the PNGCF reaffiliated with FIDE, while Cathy Rogers did a superb job as team captain. And it wouldn't have happened at all without Allan Luga, Jeppers Albis, and Helmut Marko deciding that what the Olympiad really need was PNG.

Rating Notes

We now use a slightly modified version of the Glicko rating system, designed by the Chairman of the USCF rating Committee, Professor Mark Glickman.

The main difference between the Glicko system and the Elo system is that it introduces the concept of a RD or Rating Deviation which is effectively a measure of how accurate is the players rating. Information about the system is available at math.bu.edu/people/mg/ratings.html.

A rating may be followed by either a m, a blank, a ? or a ??.

"m" --- indicates that the player has a very reliable rating.

A blank following the rating --- means a reliable rating.

"?" following the rating --- means it's unreliable.

"??" ---- indicates it's very unreliable. Only players who have a rating followed by an m or a blank are eligible for listing in the Top Players lists.
