Advertising

Commercial:

Rates are \$60 per page, \$30 per half, \$15 per quarter.

Tournament:

Rates are \$40 per page, \$20 per half, \$10 per quarter.

The ratings booklet is probably the most-read chess publication in Australia: players are always anxious to learn their new rating, and the ratings of their friends, and to see whose rating is increasing most rapidly, who are the strongest players, and so on. Some players carry it as part of their chess "kit," to look up the ratings of their opponents and record them in the space provided on scoresheets.

It is an excellent vehicle to carry messages to all Australia's active chess players.

Would-be advertisers should contact Robert Jamieson (PO Box 716, Mt Waverley, 3149) for further information.

Deadline for advertisements is 10th of March, July & November..

Introduction

By Robert Jamieson

The National Ratings Officer, John Summerfield, has moved to Perth and is enjoying both the weather and employment.

Unfortunately this has made the production of the ratings booklet a little more difficult. Faulty disks from Queensland and very late disks from SA have compounded our problems. In fact South Australians who have played interstate during this ratings period will not have accurate ratings. The SA ratings in the main part of the book only cover SA events, whilst the "top rated lists" do not include SA events. This was the best that could be done at very short notice (thanks to Don Maciulaitis for his work in processing the SA tournaments). We will shortly amalgamate the SA results with the other results to produce the correct ratings for SA players and send a copy to the States.

At the top of the new ratings list GM Ian Rogers has broken the 2600 barrier for the first time and Johansen has bounced up almost 48 points to be almost 2500. Solo

and Gede also improved, but Jamieson, Gluzman, Wohl and Wallace all fell. Igor Goldenberg was a big improver, going up 72 points to secure 15th place. Overall, it looks as if the deflation of the top players' ratings has stopped.

The women haven't changed their rankings much, with Johns-Putra being the biggest improver. Note that Phan-Koshnitsky should be in third place on 1921 (see the SA ratings) but missed out on the top females list because of our problem with the SA results.

Leskiewicz has claimed top spot on the under 16 years list, with Pizzato going up 146 points to second place, but 10 of the top 20 are Victorians!

Nine-year-old Tristan Boyd (WA) is clearly the top under 12, whilst 10-year-old Laura Moylan must also be a very promising player.

David Cordover was the most active player (and the biggest "deprover"?!?) whilst another Victorian junior, Brian Herlihy, just shaded Ricky Lopis as the biggest improver.

The Mercantile Mutual Insurance Australian Chess Grand Prix 1994

Comments & Progress Scores

Queensland Circuit is to be launched. However, through unfortunate circumstances the Townsville Open had to be cancelled. A sad story it is.

Therefore the starting gun in this series of Queensland class 5 events will be fired at the Innisfail Open on 13 August, followed on a weekly basis by the Atherton Open and Cairns Open and then, further south by the Great Ice Creamery Open. The weather there is very pleasant this time of the year. Here is your chance for an eventful chess holiday in Queensland.

OPEN

With the last two GP tournaments, Ian Rogers and Darryl Johansen continue to power ahead of the field, both having notched up over 100 points. But both have also reached the maximum of seven scores, after which they can only replace the lowest of these. Rogers will be going overseas soon which will leave Johansen in sole charge. West and Sandler are the

Halfway There!

Twenty-one of the 40 events in this year's GP programme have been held by mid-July. The ANU Open in Canberra (68 players) was jointly won by Rogers and West on 6/7, followed by Roeder, Reilly and L.Jones on 5.5 points. In all six categories of the GP only B.Tindall and L.Moylan received the maximum 25 points.

The Geelong Open (39 players) was won outright by Nick Speck of SA on 4.5/5, ahead of Johansen, Sandler and Cordover, all on 4 points. The full 25 GP points were won in every category here, the winners being Speck, Cordover, M.Kagan Jnr, Phan-Koshnitsky, Coventry and again Cordover in the juniors.

The Sydney GP Weekender July 23-24 will have taken place by the time you read this.

After that, the new exciting North

only other players moving up in the leading group. GM S.Djuric and IM M.Roeder are two foreigners trying to put their names on some of the prizes. Pizzato is still the only junior with the Open Category leaders.

UNDER 2000

Manuel Weeks has managed to increase his lead over Charles Pizzato. Starting with the Vic. Open, M.Kagan Snes has put on some speed to almost catch up with the five leaders. In this he is closely followed by David Cordover.

UNDER 1600

David Caldon is showing that living in the country is no handicap. He is building up his lead impressively. M.Kagan Jnr has now moved in close pursuit of the three leaders.

JUNIORS

Brett Tindall came up from third place to steal the lead from Pizzato who has also been passed by Cordover. It's certainly hard to stay in front here.

WOMEN

Cathy Rogers has rocketed past the opposition and established a very firm lead with maximum scores or close to it in three recent tournaments. She joins her husband Ian in having scored over a century. Her next three pursuers have not been idle either.

GIRLS

Veronica Klimenko is the only other player to have over 100 points and has been doing a good job at keeping her pursuers, Narelle Szuveges and Laura Moylan at bay. Her lead looks pretty secure.

AN APPEAL TO GP TOURNAMENT ORGANISERS - THINK 1995 NOW!

- Will you be holding the same tournament again next year?
- Same time of the year?
- Same venue?
- Same class of event?
- Are you planning a new GP tournament?

The closing date for entering tournaments in next year's program is 14 October, 1994. Please send your proposal early to :-

The ACF Rating System

John Summerfield

regularly perform more than 400 ratings points above their published ratings even when their results are processed in good time.

Even when tournaments are processed promptly, it can be five months before they are reflected in published ratings. One list later, they are nine months old, two lists and over a year!

What the ACF needs to know.

Each player who plays in a rated event is assigned an identifying number, and this is used to match game results with the central player file.

To ensure that State Ratings Officers can match tournament results and changes to player details, certain basic information must be provided:

Usual first name
Family name (surname)
Initials
Gender
Birth-date

Ratings officers cannot be expected to record tournament results correctly when the information provided to them is inaccurate or ambiguous. In Victoria, we have two Michael Kagan and two Ladislav Zeves. Qld has a junior called Michael Chou, Vic one called Michael Chow and who has played in Qld. If tournament organisers provide ALL the information we ask, it greatly improves our chances of producing correct ratings.

In addition to help distinguish between players with similar names, the birth-date allows us to produce reports of top players in various age-groups, and to produce other statistical information. The ACF has recently decided to award veteran titles, and it would be useful to be able to produce tables showing how strong our senior players are. Perhaps players would like a list of the top 10 octogenarians?

Players who move interstate should ensure that tournament organisers know they have already played elsewhere in Australia; tournament organisers must report this information to the State Ratings Officer (if the change is more or less permanent), so the player file can be changed to reflect the player's new state.

Obtaining a Rating

To obtain a rating, you must play chess. When chessplayers are first recorded in the ratings Player File, they are classified as new players. Each time some of their results are recorded, their status is reviewed. Players are reclassified as provisionally rated when they have scored at least 6.7% AND less than 100%. Provisionally-rated players may be reclassified as unrated if their accumulated score drops below 6.7%.

At the beginning of processing for a rating period, players whose accumulated score is zero are reset to the status of new players. They are regarded as having played no games. The effect of this is to start calculating ratings from the period in which a player starts to score.

Ratings are not published for players who have played fewer than nine games. For these players, a single digit followed by "R" may be recorded. These players are provisionally-rated, but they must play additional rated games for their rating to be published.

After the tournament in which players reach 30 games, provisionally-rated players are given a confirmed rating provided that they have scored at least 6.7% and less than 100%. Players who do not meet the score guidelines remain classified as unrated, but they retain their playing history to be used to calculate their rating when they earn one.

The score of 6.7% is based on a score of at least two points from thirty games. A player's minimum rating will be around 422 below the average of all his opponents' ratings.

Calculating Ratings

There are several different calculations made in determining a player's new rating. The choice of calculation depends on the circumstances.

I use the term *partially-rated* to describe a player who has played one or more rated games, but who does not have a confirmed rating. It includes unrated and provisionally-rated players.

We now have several possible ratings categories on the player file:

New players never played a rated game.

Unrated Played one or more rated games, score doesn't allow them to obtain a provisional rating.

Provisional Played fewer than 30 games, score exceeds 6.7%. Additional losses can return provisionally-rated players to unrated status.

Confirmed Players who have played 30 or more games, scored $\frac{2}{3}$ or more but less than 100%. In addition, players who had confirmed ratings on the April 1993 list continue to have confirmed ratings.

For all calculations, results against unrated players are not used.

For a new player, a performance rating is calculated:

Symbol	Description
AR	Average of Opponents' ratings
TS	Total score
Sa	Score achieved
Se	Score expected
NG	Number of rated games
SR	the sum opponents ratings
NG	the number of rated games
R	Rating.
P	the probable percentage score from table 2.
RI	Rating increment.
K	rating-point value of a game. At present K=15 for all players.
Rp	the performance rating.
Dp	the rating difference predicted in table 1.

Most of the above symbols may be suffixed with o (old) or n (new).

$$AR = SR/NG$$

$$Rp = AR + Dp$$

Example Smith scores 1/5 against players with an average rating of 1250.

$$NG = 5$$

$$TS = 1$$

Sa = $\frac{1}{5} \times 100 = 20$. We locate the entry corresponding to 20% in table 1 and find Dp(20) = -240.

From the formula we have

$$Rp = 1250 + (-240) = 1250 - 240$$

$$Rp = 1010$$

Smith's performance rating is 1010.

Note that if Smith scored 0/5 in a previous rating period, that information is discarded, and this is deemed to be his first tournament.

Rp is retained as a provisional rating. If the player has fewer than 9 games against rated opponents, the provisional rating is not published. NG, AR and TS are also retained.

For a partially-rated player

$$AR = \frac{AR_o * NG_o + SR}{NG}$$

$$Rp = AR + Dp$$

Example

Smith plays another tournament, and scores 1.5/7 against a field averaging 1310.

We have

$$AR = \frac{1250 \times 5 + 9170}{5+7}$$

$$AR = \frac{6250 + 9170}{12}$$

$$AR = 1285$$

$$TS = TS_o + TS_n = 1 + 1.5 = 2.5$$

$$Sa = \frac{2.5}{12} \times 100 = .21 \times 100 = 21$$

$$Rp = AR + DP(21) = 1285 + (-230)$$

$$Rp = 1050$$

If the player has now played 30 or more games, the player is considered rated with rating = Rp, and further rating changes are calculated accordingly.

Smith has played 12 games, and now has a provisional rating of 1050. Since he has played nine or more games, his provisional rating can be published on the next ratings list. Note that if Smith had scored less than $\frac{1}{12}$, his rating would not be published and would not be used to calculate other players' ratings.

For a player with an established rating:

$$RI = Sa - Se \times K + BP$$

$$Se = P(AR - Ro) \times NG$$

Note that if the difference between players ratings exceeds 336, it is set to 336. Thus, if Smith (1051) plays IM Jones (2400), then Jones' rating is set to 1387 for rating Smith, and Smith's is set to 2064 for rating Jones.

Example

Brown, with a confirmed rating of 1010, plays in a tournament and scores 1.5/7 against players whose average rating is 1250.

$$Sa = 1.5$$

$$Se = P(1250 - 1010) \times 7 = P(240) \times 7 = .20 \times 7 = 1.40$$

$$RI = (1.50 - 1.40) \times K = 0.10 \times 15 = 1.50$$

BP is bonus points awarded for exceptional performances. For most players in most events, no bonus ratings points are awarded,

At the end of the rating period, all Brown's ratings increments are added to his old rating. If the processing of this tournament corresponded to the end of a ratings period, his new rating would be 1010 + 1.50 = 1011.5. The ratings list would record it as 1012.

At the end of processing for a ratings period, all rating increments for each player are added to his rating at the beginning of processing.

Bonus points may be awarded to players in tournaments exceeding five rounds as follows:

Games	Condition	Points
6-10	(Sa-Se) > 1	15*(Sa-Se-1)
11-15	(Sa-Se) > 2	15*(Sa-Se-2)
15	(Sa-Se) > 3	15*(Sa-Se-3)

Brown (1011.5) plays another tournament, and shows considerable improvement. Against a field averaging (after application of the 336 rule) 1210, he scores 4/7.

$$Sa = 4$$

$$Se = P(1210 - 1011.5) \times 7 = P(198.5) \times 7 = .25 \times 7 = 1.75$$

$$RI = (4 - 1.75) \times K = 15 * 1.25 = 18.75$$

$$Pi = (4 - 1.75) \times K + 18.75 = 2.25 * 15 + 18.75 = 33.75 + 18.75$$

$$Pi = 52.50$$

In this case, Brown takes 33.75 ratings points from his opponents, and adds 18.75 to the ratings pool.
