The national ratings of players active since 1st January 1995, updated to 1st December 1996, are listed in the following pages.

Confirmed ratings are shown as three or four digit numbers. Provisional ratings are shown by a "p" following the rating. Players with fewer than nine rateable games so far are shown as a single digit number followed by "r" - the number of games required before a rating can be listed. Players shown as "Unr" have not yet qualified for a provisional or confirmed rating. Players who fail to score against rated players are reset as new players - no games and no score - and are shown as "New" in the list.

The second column shows the number of games rated during the July - October period.
