MOVE INTO THE OPEN FILE

The New COMPAQ DESKPRO 386s.

Now you can accelerate straight to 80386 power and speed. Introducing the innovative COMPAQ 386s. The affordable, high-performance personal computer that brings an even wider range of general business users up to speed with the new 80386 technology. In a sleek package designed with only the features you really need. You'll get:

- The first personal computer ever to use the breakthrough 16-MHz Intel® 386SX microprocessor, so you can run your software up to 60% faster than 10-MHz 80286-based personal computers - a special benefit for chessplayers because, no matter which chess program you use, it will simply play better on a computer which analyses more variations
- One megabyte of high-speed memory standard, expandable to 13 megabytes using a special high-speed Memory Expansion Slot—so other slots are free
- Four internal storage devices with a choice of 110, 40 or 20 megabytes of High-Performance Fixed Disk Drive and 135- or 40-megabyte tape backup option

A.C.F. RATING SYSTEM

The A.C.F. produces three rating lists per year. The publication dates and the deadlines for submission of correctly coded events are :

APRIL list	28th February
AUGUST list	30th June
DECEMBER list	31st October

The deadlines are set to allow sufficient time to enter all the coding into the A.C.F.'s computer and to correct any errors. It is important that all events which are to be rated are sent to your State's Rating Officer (or State Secretary) as soon as the event is completed.

Coding forms are set out in a format similar to a tournament scoretable and are available from your State Rating Officer. Instructions on how to complete the coding are on the coding form so please read them carefully. If you have a query then contact your State Rating Officer BEFORE you begin coding. Only events which are submitted via your State Rating Officer will be accepted for rating by the A.C.F. By having events coded as soon as they are completed any coding errors can be corrected in time for the next rating list. Events with coding errors will not be processed until the errors are corrected.

Calculation of ratings

The basic formulae for the A.C.F. rating system are :

- (i) for new players and players who have played less than 9 games against rated opponents;

$$R_n = AR + DP$$

- (ii) for players who have played at least 9 games against rated opponents, i.e. players with established ratings;

$$R_n = R_o + 15*(Sa-Se)$$

where R_n =new rating, R_o =previous rating

AR =average rating of rated opponents

DP =rating difference for the percentage scored from Table 1

Se =score expected from Table 2, Sa =score achieved

When calculating ratings the following conditions apply :

- R_o is the rating of the player at the start of processing (i.e. the last published rating).
- Se is obtained using the DP based on the average difference in the players' ratings from Table 2 multiplied by the number of games played
- if the rating difference is >336 then the difference is set to 336
- games where both players are unrated are not used in the calculations.
- games where only one player is unrated are not used for the rated player but are used in calculating the performance rating of the unrated/provisional player.
- ratings for unrated/provisional players are calculated first, and if during the event being processed the player exceeds 9 games against rated opponents then that player's performance rating becomes the new established rating in the rating calculation for the opponents.
- games played by and against computers are not counted for ratings.

After taking the above into account there are two other factors which affect the calculation of an established player's rating :

Tournament categories and Bonus points.

The rating factor of 15 is used for all events (including the Australian Junior and Girls championships), except as outlined below:

- junior events other than Australian title events :factor = 7.5
- State Championships (not State Reserve tournaments) :factor = 22.5
- Australian Championship events (not Reserves) :factor = 30.0

Bonus points are given if the following conditions are met :

- for 6 to 10 round events, if $(Sa-Se) > 1$, bonus points= $F*(Sa-Se-1)$
- for 11 to 15 round events, if $(Sa-Se) > 2$, bonus points= $F*(Sa-Se-2)$
- for 16 to 20 round events, if $(Sa-Se) > 3$, bonus points= $F*(Sa-Se-3)$

where F = factor

Bonus points are not given for events of less than 6 rounds nor are they given to unrated/provisional players.

Events, including team events, will only be rated if :

- games are played at a time limit of two minutes per move, or slower for the first time control, provided that the first time control is not before move thirty (30). (refer A.C.F. Minutes 81/7.8)
Note that this does not exclude events with a faster time control in the second or subsequent sessions from being rated.
- it is not a handicap event (e.g. time, piece/pawn)
- it is not a fixed opening event
- it is approved for rating by the local State Chess Association and/or the A.C.F.

What does the A.C.F. want to know about you?

Every player who plays in a rated event is allocated an IDENTIFICATION NUMBER. In order to identify players and to minimize duplication the basic information required is:

first name (& initial of middle name/s), last name, sex, date of birth and club. Date of birth may be held as day (numerical) and 3 character abbreviation for the month (i.e. JAN,FEB,MAR,...). It may also be held as ddmmyy where dd=day mm=month yy=year.

The primary cause for duplication of names on the rating list is that State Rating Officers may not be aware that a player in an event comes from interstate and has already been allocated a number in that State. It is therefore important that players playing outside their own State ensure that their home State is indicated on the tournament scoretable and is advised to the State Rating Officer. Similarly, if you move interstate then you should advise the local Ratings Officer so that you can be allocated a new IDENTIFICATION NUMBER and your rating and other information can also be transferred.

This masterfile information will also be used to produce special rating lists, e.g. for juniors, by sex, between rating limits, by club membership. Much of this information has yet to be collected and it would be appreciated if club secretaries and other interested people would provide this information to your local State Rating Officer.

For your convenience special forms are available for this purpose.
