(b) Remove WPd6, put WK on d6 (4x7)

(c) Add WPd2, Put WK on f8 (5x7) Three prizes to 3 neatest correct solution to both problems

Computer solutions. Jens Kieffer-Olsen of PO Box 177 Narrabeen 2101 has developed a program which solves 1-ers to 9-ers and which cost him \$500. He offers

solutions to 2-ers for \$4 or 3 for

Brian Tomson/Robert Shearer 2/10/81 \$10 and will quote a price for more movers. Invaluable for composers who wish their work checked for c etc before entering it in a tourne Jens feels he can develop a progra for self-mates & helpmates and all interested please contact him. Last month's problem (1.Kg4..any 2.Qh2!) was solved by P.C.fans in times up to an hour. Peter Parr si the position up on one of his comp and it took 45 seconds!! George Meldrum sent me the Interna ional Computer Chess Association Newsletter for May in which is a game between Hans Berliner and Bell the World Computer Champ. An amazing affair which Hans won but on curre performance Belle is rated at 2384 would undoubtedly be World's Problem Solving Champion if there was such an event. Jens sent me the Compute solution to Kosh's 8th November Sun-Herald problem by K.A.K.Larson The printout was nearly 5' long and had all the moves in all variation as well as tries!

> Prizewonners: Dr Vasil Tulevski, P. Bronson, C. Farnot.

Prizes will be Gerard Mahoney's 'Eye of the Spud' for the next to solvers. Those who miss out gettle one from me can buy one from him \$5 post free (See p.218 Sep CIA) It's a top book with a couple of chess references as well. \* \* \* \* \* \* \* \* \* \* \* \* \* \*

The Get-together on 3rd October saw Bernie J, Dennis Hale, Jim Jone George Meldrum, John van Der Klaw, Nigel Nettheim, and myself in the revamped Phoenician Club near Gra Bros. Ian Rogers was there for # short while and was presented will prize in the solving tourney. Subjects discussed were favourite problems, computer chess, chess bel the Iron curtain, but the highligh was a brilliant retro by JVDK whi May be able to show in a future column.

# NATIONAL RATINGS

This rating list is based on results received up to December 1981. As usual, 'M' indicates liable rating, "?" a somewhat unreliable one and "??" one which only a vague indication at best. I less reliable than '??' have not been published and such players should be regarded as

Mildentally, the indications are not based simply on number of games played but on a number of

your rating does not seem to be correct there are a number of possibilities:-

- (1) Not all of your results were submitted. Check the list of tournaments rated.
- (II) Some of your results were wrongly credited to someone else (or vice-versa). If you think this might have happened, check with your State Ratings Officer or me.
- III) Inertia ratings do not respond instantly to sudden changes. A good result after many years of plodding, for example, must be confirmed by subsequent results to ensure that it is not just a flash in the pan.
- (IV) You aren't as good as you thought you are! (We all seem to think of our absolute best as our "average strength".)

Mare due to the State Ratings Officers for collating and coding results.

G. Saint, A.C. F Ratings Officer.
