A.C.F. RATING SYSTEM

The A.C.F. produces three rating lists per year. The publication dates and the deadlines for submission of correctly coded events

AUGUST list DECEMBER list

28th February 30th June 31st October

The deadlines are set to allow sufficient time to enter all the coding into the A.C.F.'s computer and to correct any errors. It is important that all events which are to be rated are sent to your State's Rating Officer (or State Secretary) as soon as the event is completed.

Coding forms are set out in a format similar to a tournament scoretable and are available from your State Rating Officer. Instructions on how to complete the coding are on the coding form so please read them carefully. If you have a query then contact your State Rating Officer BEFORE you begin coding. Only events which are submitted via your State Rating Officer will be accepted for rating by the A.C.F. By having events coded as soon as they are completed any coding errors can be corrected in time for the next rating list. Events with coding errors will not be processed until the errors are corrected, nor will they be accepted if they are more than one rating list out of date.

Calculation of ratings
The basic formulae for the A.C.F. rating system are :
(i) for new players and players who have played less than 9 games

Rn = AR + DPfor players who have played at least 9 games against rated opponents, i.e. players with established ratings; Rn = Ro + 15*(Sa-Se)

Rn=new rating, Ro=previous rating AR=average rating of rated opponents DP=rating difference for the percentage scored from Table 1 Se=score expected from Table 2, Sa≃score achieved

- When calculating ratings the following conditions apply:

 Ro is the rating of the player at the start of processing (i.e. the last published rating).

 Se is obtained using the DP based on the average difference in the players' ratings from Table 2 multiplied by the number of games played if the rating difference is >336 then the difference is set to 336 games where both players are unrated are not used in the calculations. games where only one player is unrated are not used for the rated unrated/provisional player.
- player but are used in calculating the performance rating of the unrated/provisional player.

 ratings for unrated/provisional players are calculated first, and if during the event being processed the player exceeds 9 games against rated opponents then that player's performance rating becomes the new established rating in the rating calculation for the opponents.

 games played by and against computers are not counted for ratings.

 -all events are weighted equally.

BONUS POINTS

Bonus points are given if the following conditions are met:
- for 6 to 10 round events, if (Sa-Se) > 1, bonus points= F*(Sa-Se-1)
- for 11 to 15 round events, if (Sa-Se) > 2, bonus points= F*(Sa-Se-2)
- for 16 to 20 round events, if (Sa-Se) > 3, bonus points= F*(Sa-Se-3) Bonus points are not given for events of less than 6 rounds nor are they given to unrated/provisional players.

Conditions for rating events

- Conditions for rating players in Swiss or team tournaments:

 games are to be played at a time limit of two minutes per move, or slower for the first time control, provided that the first time control is not before move thirty (30). (refer A.C.F. Minutes 81/7.8) the second or subsequent sessions from being rated.

 games may be played under the Rules for (5ixty-Minute) Rapid Chess.

 the event is not a handicap event (e.g. time, piece/pawn)

 the event is not a fixed opening event

 the event is approved for rating by the local State Chess Association
- the event is approved for rating by the local State Chess Association and/or the A.C.F.
